STUDENTS SPEAK OUT AT MEETING

Lively Discussion Characterized the Meeting of the Students' Society Yesterday.

MUCH CRITICISM OF C.O.T.C.

Financial Statement of Council and McGill Daily Show Large Surpluses.

A more lively interest was displayed in the matters coming before the annual meeting of the Students' Society held in the Union yesterday morning than has been the case for a number of years. Probably this was due to the fact that the business in hand was of the utmost importance to members of the student body at large. The attendance was in the neighborhood of 400, and although this was lowered during the meeting, a considerable number of men remained until its close, after one o'clock, more than three hours after it had been opened.

The meeting was opened with the reading of the minutes of the previous meeting by the secretary, Howard A. Melville. A. S. Lamb, president of the Students' Society, occupied the chair. Mr. Lamb read a reply from the Graduates' Stadium Committee, explaining that the amendment passed at the last meeting of the society really lapses and the original agreement stands. Mr. Lamb explained that the interest is to be met from the revenue of the Stadium, and in the event of there being no revenue, as in the case this year, the graduates pay the interest. Mr. Melville read the statement of revenue and expenditures for the year, the same being adopted.

Mr. Lamb called attention to the great misunderstanding which exists in the case of many students with regard to what becomes of the \$10 universal fee.

The Daily Report.

Lieut. C. J. Tidmarsh read the financial statement of the McGill Daily for the year, and also for the Special War Contingent Supplement. A surplus of \$636 was shown in the first case and one of \$1,528.88 in the second case. Thanks to the new constitution and the system by which representatives to the editorial board are elected from the various classes, Lieut. Tidmarsh said the Daily was being conducted in a most satisfactory manner. The offices have been enlarged during the summer, and this has counted a great deal in the success which the Daily has attained. Lieut. Tidmarsh also spoke of the system of awarding pins and of the need for additional men to help in the issue of the student newspaper.

Mr. E. A. Leslie, who was editor-in-chief in charge of the special issue of the Daily, asked where the surplus from that edition had gone to, and was told by Mr. Lamb that, in accordance with an agreement, it had been handed over to the C.O.T.C. Battalion. Mr. Lamb thought that the Students' Society should in some manner put itself on record in appreciation of the work done by the Daily staff. At a later stage of the meeting, a resolution, moved by Mr. L. H. Nichols and seconded by Mr. E. A. Leslie, was passed.

Two amendments relating to the succession to the presidency and vice-presidency of the Students' Society in the event of the death of those holding the offices, and a third touching upon the appointment of the Comptroller, rendered necessary by the agreement with the graduates' committee, were adopted.

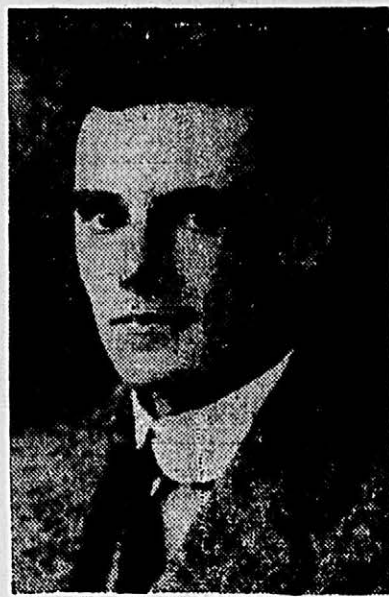

The Military Situation.

Military matters were reached when Lieut. J. C. Simpson, acting adjutant of the C.O.T.C., arose to deliver an address on the matter of enlisting in the Battalion. Lieut. Simpson, in opening his remarks, expressed his appreciation of the favor conferred in allowing him to speak before the meeting. The case, however, was urgent, and he was of the opinion that all would agree with him at the close of his remarks. He criticized the letter of "Veritas" appearing in yesterday's issue of the McGill Daily. The Battalion, he stated, was not appealing to the man who does not consider it to be his duty to prepare for eventualities, nor to the men whose careers will suffer, but to the men who believe that everybody should train themselves for whatever may come and devote the time otherwise spent in recreation to drill. Lieut. Simpson spoke of the seriousness of the times and of the situation at McGill.

"The students of McGill hold their honor in their hands," he declared, after referring to the reputation which the C.O.T.C. enjoys in the United States and in the Mother Country. Over 125 men who were with the C.O.T.C. last year are now holding commissions, and over 425 others are serving as N. C. O.'s and men. From the War Office down," said Lieut. Simpson, "it is found that these men are making good and have profited immensely by their work with the Battalion. That fame carries with it a responsibility, and that is that the reputation must be lived up to. If the reputation is allowed to be smirched, it means the smirching of the name of McGill."

Killed in Action

LIEUT. CHRISTOPHER MOOR, A McGill man, who has been killed while fighting with the British forces.

L.M.C.C. EXAMS. RESULTS ARE MADE PUBLIC

Twenty-Seven Out of Fifty Candidates Obtain Degree of L.M.C.C.

Montrealers Successful

Success Qualifies For Practice in Any Province in Canada.

Dr. R. W. Powell, of Ottawa, registrar of the Medical Council of Canada, has announced the results of the examinations for the qualification of L. M. C. C., held recently in Montreal. Some fifty candidates presented themselves for examination, from all over Canada, and of these 27 were successful.

The qualification of L.M.C.C. is accepted for registration to practice in any province of Canada, under the provisions of the Canada Medical Act, known familiarly as the "Roddick Bill."

The presiding officer at the examinations was the registrar, Dr. Robert W. Powell, of Ottawa, and his deputies were Dr. J. W. Scane and Dr. A. U. Rivet, of Montreal.

There were in all 28 examiners (14 English and 14 French) in order to provide for candidates who desired to be examined in French.

The examiners are chosen by the Medical Council of Canada, and are all men of note from the various centres of Canada engaged in the teaching of medicine and surgery.

The spring examination took place at Winnipeg last June, when 40 candidates presented themselves.

A much larger class than 50 would have been at this present examination had it not been for the war and its attendant complications and necessities, requiring the services of a large number of young medical men.

The next examinations are ordered to be held at Toronto and Winnipeg coincidentally, in June, 1916.

The pass list, arranged alphabetically, is as follows: S. M. Asselstine, Kingston; A. R. Bayne, Sherbrooke; J. L. Clark, Edmonton, Alta.; A. H. Campbell, Sprague, Ont.; C. T. Crowdy, St. John's, Nfld.; E. B. Convery, Montreal; A. D. Campbell, Toronto; J. Carmichael, Collingwood, Ont.; K. A. Denholm, Blenheim, Ont.; W. V. Edwards, Souris, Man.; B. J. Funk, Hebert, Sask.; J. F. Gallagher, Montreal; D. Martin, Nelson, B.C.; C. R. Joyce, Granby, Que.; R. Lessard, Montreal; D. J. Mackinnon, Bedford, Mass.; J. G. Munroe, Montreal; D. A. Macleod, Ottawa; C. Powles, Cape Breton, N.S.; B. C. Patterson, Hallville, Ont.; C. D. Robbins, Montreal; S. O. Rogers, Toronto; Richard Smith, Hopetown, Que.; G. E. Thomson, Kingsmill, Ont.; J. A. Urquhart, Revelstoke, B.C.; W. A. Vanderburg, Hamilton; J. G. Wright, Kingston, Ont.

This Time Last Year From the Daily Fyles

Athletic Association held a meeting at the hall, at which a number of important affairs were discussed.

Installation of new system whereby out-of-town athletes are reported by wire.

Freshmen conversat announced, much to interest of freshmen.

The C.O.T.C. had a rather good day, 34 men joining the Battalion.

REDUCTIONS IN COURSES ARRANGED

Options in Science Course for Undergrads. Taking C.O.T.C. Work.

STOP AT 4 P.M. TUESDAYS

Time-Table Changes Will be Posted at Close of Recruiting, Saturday 23rd.

The following notice was posted yesterday in the Science Building with regard to reductions in undergraduates' courses taking C.O.T.C. work:

(a) For such undergraduates, in all years, and in all courses, work will stop at 4 p.m. on the day of afternoon drill (Tuesday).

(b) For such undergraduates, the following reductions are approved in accordance with the preliminary notice issued by the Dean of the Faculty on October 16, 1915, and subject to the conditions stated therein:

First Year.

Architecture.—None. All other undergraduates.—Omit one period of shopwork (Nos. 212 to 215) per week throughout the year.

Second Year.

Architecture.—One period of mapping (348) per week for one term. Other undergraduates.—Different reductions have been approved, dependent upon the branch of study which the undergraduate proposes to enter in his third year. Those who have already decided this point should follow the schedule. Those who are undecided may avail themselves of either of the reductions offered, but in no case shall any present decision bind the student in regard to the branch of study he will enter later. On entering the third year he will be free to follow any branch, just as if he had taken the full undergraduate course.

Reductions Approved.

Second year undergraduates proposing to enter.—Chemical, electrical, mechanical, metallurgical or mining engineering: One period shopwork (220) per week for one term. One period mapping (348) per week for one term. Civil engineer and railway transportation: One period shopwork (220) per week for one term. One period mechanical drawing (219) per week for one term.

Third Year.

Reductions approved. Undergraduates in architecture.—None.

Chemical engineering.—Two hours per week quant. analysis (62) throughout the year. One hour per week determinative mineralogy (143) throughout the year.

Civil engineering.—One period mechanical lab. (228) per week, first term. One period mapping (355) per week, second term.

Electrical engineering.—Mechanics of machines (224), second term. Mechanical engineering.—Shop processes and management (237).

Metallurgical engineering.—One period fire assay lab. (263) per week, first term. One period metallurgical lab. (262) per week, second term.

Mining engineering.—One period fire assay lab. (263) per week, first term. One period mechanical lab. (228) per week, second term.

Railway transportation.—Machine design (225), second term.

Fourth Year.

Reductions approved. Undergraduates in architecture.—Engineering law (175).

Chemical engineering.—Engineering law (175), or hydraulics (101), and hist. of chemistry (74).

Civil engineering.—Any one of the following: Engineering law (175); electric railways (389); hydraulic machines (99), or municipal engineering (100).

Electrical engineering.—Applied electro-chemistry (69), or electro-metallurgy (275).

Mechanical engineering.—Works organization and accounting (254), or manufacturing plant design (253).

Metallurgical engineering.—One period inorganic quant. anal. (67) per week, first term. One period metallurgy lab. (274) per week, second term.

Mining engineering.—One period ore dressing lab. (300) per week for one term. One period electrical lab. (112) per week for one term.

Railway transportation.—Railway economics (177), second term.

Time table changes necessitated by the exercise of the above options will be bulletined after the close of recruiting, Saturday, Oct. 23.

McGILL MAY GET POEM

A. E. Redpath Bid Twenty Guineas for Unpublished Work of Macaulay.

A Canadian Associated Press Dispatch says: A. E. Redpath, of Eastbourne, offers twenty guineas for an unpublished poem of Macaulay's, which is being sold for the sick and wounded. Mr. Redpath would hand the poem to the Redpath Library of McGill University.

ANGLINS LIMITED Contracting Engineers :: Montreal

OUR Major Contract Department is the big end of our business. Recent work carried out by this Department includes large operations for the following owners:—

Acadia Sugar Refinery (2 Bldgs.), Dartmouth, N.S.; Bank of Montreal, Brantford, Ont.; Mr. Francis McEwen's Residence, near Quebec; Canadian Hart Accumulator Co., St. John's, P.Q.; Gannaque Spring & Axle Works, Gannaque, Ont.; Belding Paul Cortice, Ltd., Concrete Bldg. for Montreal Light, Heat & Power Co., St. Lawrence Sugar Refinery, Loyola College (2 Bldgs.), Toilet Laundry Co., Montreal Baby & Foundry, Hospital, Edward Seventh School and Gault Bros. & Co., Ltd., all in Montreal; also Bell Telephone Bldg., Sherbrooke; Concrete Stable, Alrd's Bakery; Molsons Bank, Cote St. Paul, etc.

Every known type of construction is represented in these buildings which fact illustrates the wide experience and ability of our staff.

A Yankee on the British

The following letter, which is quoted in the London "Spectator," is by a young American fighting with the Allies:—

"I've been mixed up with the British soldiers for some time now," he says, "and I tell you there is not a cleaner fighter nor better gentleman in the world than the average Britisher. They know how to win and they know how to lose. They never forget they are gentlemen no matter what they do, and they have the courage that knows no ending. Napoleon said: 'The British nation is a race of lions led by asses,' and he was quite right. They are thought to be snobs, but I admire them. I have seen the 'snobs' out in France, and braver men nor truer gentlemen never lived. They share the hardships with the men, and never ask them to do what they wouldn't do themselves. The men worship them, and will follow them anywhere. I have yet the witness a German officer leading his men in a charge. They follow after. But the British officer always leads his men, and so does the French."

"For an example of the average British officer let me tell you of my company commander, Lieut. Scott. He is only a boy of twenty, and a direct descendant of Sir Walter Scott. He was an only son of one of the proudest families in Scotland. When there was any risky work to be done he would not shift it off on to a sergeant or corporal, but would ask for volunteers, and when he had those he wanted would lead himself. His unflinching devotion to what he considered his duty and quiet courage he considered his duty and quiet courage in the performance of that duty was something beautiful to witness."

College Days Not Holidays

An undergraduate has written recently his confessions for the textbook, in which he says: "In a secluded rural community such as ours, college life is a delightful idle existence, varied enough to keep it sweet. The hours wasted every day in a modern American university would furnish interesting material to those persons with a passion for disconcerting statistics."

This view of university life is not especially new. There have always been angles from which men have seen college existence as an easy-going play-spell.

While there is little doubt that there is far too large a class of undergraduates who take their four years in college as a somewhat pleasant holiday, no one can study the statistics showing the large number of the college men of America supporting themselves fully or in part through their college course by all kinds of work, without realizing that to the major part of our undergraduates student days are more than four years of outing. The tendency to restrict the elective system, together with the more emphatic insistence by the faculty upon scholarship upon the part of athletes are only a few of the signs revealing the drift toward making our colleges more truly intellectual centres.

Students and the C.O.T.C.

What is our attitude towards the C. O. T. C.? This is the question most prominently before the undergraduates of McGill at the present moment, and one which should be answered at once. Last year the answer was a muster parade over one thousand strong; this year, after three weeks advertising and persuasion; there are seventy-seven students in the ranks of what is, in name at least, the McGill C. O. T. C.

What is the real reason or reasons for this startling change of feeling towards the battalion? It is certainly not any change of attitude towards military affairs, for some students are actually joining other units in the city in order to secure military training. For some time there has been evident an antipathy or at least an apathy towards the McGill regiment, but until quite recently the subject has not been open and freely discussed. There has been a feeling that the matter would adjust itself somehow and that it was advisable to give it as little publicity as possible. As the weeks have passed the state of affairs has not become any better and the Daily believes that the time has now come for an open and thorough inquiry into the whole matter. The honest statement of grievances and complaints is not unpatriotic but absolutely necessary before any real and stable settlement can be arrived at.

A considerable number of the students who joined the corps last fall soon went to the front and practically all those who are left and who have returned to the University this session have some good reason why they have not also enlisted. They have come back to college primarily to study, and not with the intention of acquiring some degree of military proficiency before going on active service. They are not, therefore, in the same position as many of those who belonged last year to the regiment and it is

Correspondence

The Daily is not responsible for the sentiments of letters published in the correspondence column. Signed communications from graduates, undergraduates and members of the faculty will be placed in print if they are not of too great length.

Correspondents are requested to observe the unwritten law of the newspaper office—that they write upon ONE side of the paper ONLY.

The C. O. T. C.

To the Editor of the Daily: Dear Sir,—In reading over your two recent issues I notice several letters which discuss the attitude of the students' body with regard to the recruiting of the Battalion. The opinions expressed in these letters seemed to find favor in every discussion of this subject by the students during the last few days.

The whole trouble seems to be that the students gave the Battalion a fair trial last year, but before the end of the session—in fact, at the very outset—the majority became dissatisfied with the way things were carried on. In spite of what Mr. Simpson may say, every student knows that the battalion work made great inroads upon his time for studying, which even under ordinary circumstances is considered just sufficient for the work prescribed in the curriculum.

The students last year decided to obtain what they thought would be good military training, and willingly "paid" part of their valuable time for it. They now decide that the small amount of training they received was not worth the sacrifice of a good part of their studies. Most men come here to study and cannot do two things at once. Of course there is also the kind of students Mr. Simpson mentions who can give several nights a week to pleasure, but these are not representative of the students as a whole.

At the very outset last year it was found by many that a good deal of time spent with the battalion was wasted as far as their object in belonging to the battalion was concerned. There were many very good and devoted officers in the battalion, but a great many were men who had no previous military experience whatever. At the same time, men who had qualified as officers were serving in the ranks, for these new and inexperienced officers to practice on, even though they had sought to get positions to which they were entitled.

If the officers were not selected on their qualifications or efficiency, how were they chosen? This question was brought up at meetings last year, and also in the columns of the Daily later on, but it was never answered.

The old C.O.T.C. did not take a large part of the students' time, but it was devoted entirely to training them as officers and not necessarily so much to the development of leg muscles and the endurance of discomforts. This part of the training can be had elsewhere when the men decide to go into active service.

The work of the Auxiliary Battalion is very good. It is hoped that they will succeed in training their one thousand men, but it is not a representative McGill battalion and should not necessarily feel itself entitled to the support of the students any more than any other city battalion, to which class it seems to belong.

All facts concerning the battalion have been widely advertised, and it is up to each student to decide for himself whether he will benefit by joining the battalion or not.

H. R. WICKENDEN.

The 4th Universities Co., Oct. 20, 1915.

To the Editor of the Daily: Dear Sir,—Since writing the other day, I have been brought to my notice that the authority for one of my statements was misleading. I am therefore now taking this opportunity to make a correction, and to say that I regret very much the false impression it has created.

The statement which I wish to revise refers to the number of McGill and University men who compose the Fourth Universities Company. I have now learned that there are two McGill men and 50 per cent. more university students and graduates in this company, and I wish to make it known.

It is to be hoped that the report of the proceedings of the Students' Society in this issue of the Daily will contain sufficient explanation of the granting of the use of the Union to the Universities Company to clear away any misunderstanding. In case it should not, however, I simply desire to state again that it is the principle involved in the method of granting the Union that was taken exception to, and I have no doubt that if the students had been given the opportunity to express their wishes in the matter, they would gladly have given even greater privileges. For reasons that were shown today, this was denied us.

As I said when I wrote previously, we have nothing but the highest opinions and respect for the men of the Fourth Universities Company, and I know that the men of the different companies stationed here this summer always aroused admiration.

Trusting that I have sufficiently explained this matter,

I am, dear sir, Yours truly,

L. H. NICHOLS.

COLLEGE THEATRICALS

Senior Play Committee Hold Meeting at R.V.C. to Select Play.

A meeting of the senior play committee was held in the R. V. C. Tuesday afternoon for the selection of a play to be put on by the seniors early in January. Nothing has definitely been decided as yet, but a play will be selected in the very near future.

probable that a somewhat different type of military instruction would better suit their needs and requirements. This can only be ascertained by impartial discussion of the points at issue without confusing the situation by sentimental considerations. The Daily feels confident that McGill students are patriotic, but whether or not that patriotism may be best shown by joining the C.O.T.C. or in some other way, is a question which must be settled by each individual student for himself.

MCGILL ORIENTAL.

A business meeting of the Oriental Society will be held in the lecture theatre of the Engineering Building on Tuesday, Oct. 26, at 8 p.m.

SMOKER POSTPONED

Sophs. Request Change in Date of Freshman-Sophomore Smoker.

At a meeting of the class of Arts '19 it was decided to change the date of the freshman-sophomore smoker from Friday, the 22nd, to Wednesday, the 27th. This change was requested by the sophs owing to the fact that they are to play a game of football on Saturday, and fear that this, combined with the rush, would be too much for their nerves, and that they would not be in their best condition on Saturday.

MAGAZINE PAGE WILL BE STARTED

Feature Page of McGill Daily Will Appear on Each Wednesday.

Several matters of importance were discussed at a meeting of the staff of the McGill Daily held yesterday afternoon. The editor-in-chief reported that the representatives from the different classes were responding in a much more satisfactory manner than had been the case the previous year of issue. It was suggested that all members of the staff contribute toward the fresh number, which is to appear on Saturday.

The establishment of a weekly magazine section, to appear each Wednesday, was decided upon, with F. C. Auld in charge of same, with the recommendation that other members of the staff do all in their power to assist him in the discharge of his duties. It is expected that members of the teaching staff will contribute to this page, which is bound to be an attractive feature.

ARTS '17 MEETING.

A meeting of the class of Arts '17 will be held to-day in the reading room at 12 o'clock. Very important business is to be discussed, and a full attendance is requested.

CHEM. SOCIETY HEARS PAPER BY DR. HARDING

Lecturer Discusses Relation Between Diet and Growth of Human Organism.

At the regular meeting of the Chemical Society held last Tuesday afternoon in the Chemistry Building, Dr. Harding read a paper on "The Relation Between Diet and the Growth of the Human Organism."

Dr. Harding discussed the question as to whether it were possible for human beings and the lower animals to exist on any length of time on pure chemical foods. Fats, proteins, carbohydrates and mineral salts are necessary for the proper growth of the animal organism. Experiments in human beings are not possible, as it is exceedingly difficult to obtain large quantities of pure proteins. For this reason it was necessary to work on the smaller animals. It has been shown that there is something in the husks of rice which can cure the disease beri-beri. This substance was called Vitamine. From this fact the Vitamine Theory was evolved, which states that the animal organism requires small amounts of certain substance in the diet, which are essential for health.

The speaker then reviewed the work of various investigators, who all used rats for subjects. Hopkins fed numbers of rats, kept in pairs, on a purely chemical diet. One of each pair was given 2 c.c. of milk per day. The nutrient in the milk grew normally, while the rats which did not receive the milk gradually lost weight, and finally died. It was also shown that the milk did not increase the absorption of food in the alimentary canal. The milk must, therefore, contain some substance which is essential for the proper utilization of food in the animal organism.

Osborne and Mendel traced this active substance to butter fat. Beef fat also contained a small amount. It was absent in the case of vegetable fats, such as almond oil and olive oil.

At the close of the address a discussion ensued, and the meeting then adjourned, with a hearty vote of thanks to the speaker.

MCGILL DAILY

SUBSCRIPTION RATES.

Graduates, Montreal, \$2.50; elsewhere, \$3.50.

Undergraduates who have not paid the universal fee, \$1.50.

STUDENTS

SPEAK OUT AT MEETING

(Continued from Page 1.)

What "Efficiency" Means.

Lieut. Simpson spoke of the organization of the Battalion last autumn and of the enthusiasm of the members of the Auxiliary Battalion with regard to the C.O.T.C. The officers are turning business men away every day. If McGill men do not join, he said, the C. O. T. S. will not be fulfilling its proper function. The concessions of the faculties, said Lieut. Simpson, do not lower the efficiency of the work of the University, but allow time to the students to drill. With regard to the term efficiency, he stated, that this would mean attendance at 75 per cent. of the drills and a decent interest taken in the Battalion.

The question was raised by J. E. Fugger if Americans joining the C. O. T. C. and taking the necessary oath would lose their American citizenship. This matter was discussed at some length, and Lieut. Simpson promised to enquire into the matter at his earliest opportunity.

Various questions were asked regarding the different concessions granted by the faculties, Messrs. F. B. Common, S. H. O'Brien, R. Eadie and others taking part in the discussion.

Certificate "A."

The question of the recognition of the C.O.T.C. certificate "A" was raised by Lieut. F. C. Auld, of Arts '17, who also asked for information respecting the special courses in machine gunnery, signalling, etc. Lieut. Simpson, for the Battalion, replied that the certificate "A" ranks higher than the ordinary militia certificate, and no qualifying course is offered in machine gunnery, as this was merely to give intending infantry officers a requisite knowledge of the subject.

"Pen" Paisley in a short address put what he considered to be the attitude of the students in a most concise and clear-cut manner. He urged that the students should either go into the military game heart and soul or else pay all their attention to their studies, and proposed that studies be completed first and constant training of perhaps a month's duration be instituted at the close of the session and made compulsory. No half-way measures was Paisley's attitude.

Capt. "Dan" Gillmor and Lieut. W. Molson also gave their views on the students and the C.O.T.C.

The Arts Concessions.

S. R. McCreary compared the concessions granted to students of the Arts Faculty last year with those which were to be received this session, and claimed that these latter were practically no concessions at all, since they affected only those who are either going on active service or are to qualify as officers or N. C. O's.

V. Lemay spoke at some length of the reputation enjoyed by McGill in the States, and of the difficulty with which he had been confronted in his academic work while a member of the C.O.T.C. He was forced to discontinue drills owing to pressure of studies. He suggested the formation of a military department in the University modelled upon institutions of that class in the United States. He was of the opinion that students should give their whole attention to either military matters or to their studies.

Mr. Paisley asked if the establishment of a military department would meet the requirements of military work.

Lieut. Simpson replied that the organization of the C. O. T. C. had been placed here by the Militia Department, not by the C.O.T.C. itself. Personally he was in favor of a military camp last a month, but did not think that the winter's work should be neglected.

The Faculty "Bribes."

G. M. Pitts expressed himself quite forcibly against the action of the faculties in granting "bribes" or concessions to students joining the C.O.T.C., and claimed that the efficiency of academic work was by this means being lowered. Later he advocated the immediate establishment of the dormitory system, and gave it as his opinion that the dormitories should have been constructed before the Stadium.

A resolution, moved by Mr. Pitts and seconded by Mr. Gibbs, was passed, putting the student body on record that the dormitories are an essential to student life in this University.

Mr. Lamb made the important announcement that he understood that the construction of the dormitories was to be proceeded with at an early date.

S. R. McCreary, who was disqualified from running as a candidate for the presidency of the Track Club, endeavored to gain a hearing concerning technicalities in the constitution of the Athletic Association, which Mr. Lamb explained did not concern this year's council. At a later stage, when Mr. McCreary brought up another technicality, he was ruled down by the president, who threatened to summon the sergeant-at-arms if he continued.

The Union and the Soldiers.

The use of the Union by the successive Universities companies was introduced by Mr. Miller, who as a student and a supporter of the Union, asked by what right the Fourth Company had been granted the use of the building. G. M. Willis, president of the Union, reviewed the different steps taken regarding the securing of the Union by the Companies. The advisory board had granted permission to them because they thought the students might sacrifice a few of their privileges and do their little bit in that way. The companies are providing for cleaning and deterioration, he explained.

Mr. Miller thought that the students' opinion should have been sought in the matter, and also that under the circumstances any other unit in which there are University men should be granted the same privileges.

Lieut. J. H. Reid spoke for a few minutes on the case which the companies had taken of the Union during their occupation.

On motion of Mr. Paisley, seconded

In the Men's Stores

Time for Warmer Hosiery

and Goodwin's are ready in advance and prepared to meet your every Hosiery want. Warner Socks are here—despite the rise in wool prices—at, in the majority of cases, last year's prices for last year's qualities. A full assortment in Cashmere wool, worsted, silk and wool, and fancy knit awaits your choice.

MOVIE-MAN TO BE

ATTRACTION AT RUSH

Freshies and Sophs. in Combat

to be Subject for Film

Play.

(Special Correspondent at the Front.)

A great gathering is expected at the coming freshman-soph "scrap" which is to be held to-morrow at the new Stadium, due to the fact that a "movie man" from the Bathe Freres Motion Picture Company will be on the job to portray for future generations just what the sophomore year in college this year can do, when it comes to beating up and generally wrecking anything that in any way suggests "freshman." This is unprecedented, and ought to bring forth at least a good attendance of freshmen, who somehow or other always seem to be laboring under the impression that they are the "big cheese" when it comes to facial and general physical appearance. But, alas and alack! for their sweet, fresh young hopes, for by the time they pass anywhere near the vicinity of the gym they will indeed be sorry-looking wrecks. Imagine, if you can, a bedraggled-looking bunch of the genus freshman, limping forward, eggs streaming from their attire, their faces covered with bright green paint, their glowing locks a mass of sticky fly-paper, and their dainty pedal extremities encased in nothing but mud! Suffice to say, this will be too good an opportunity to get into the limelight, so, be on deck, boys!

The Royal Military College of Canada

THERE are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government Institution, designed primarily for the purpose of giving instruction in all branches of military science to Canadian officers of the Canadian Militia. In fact it corresponds to Woolwich and Sandhurst.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis the cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and in addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensure health and excellent physical condition.

Commissions in all branches of the Imperial service and Canadian Permanent Force are offered annually.

The diploma of graduation is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulations of the Law Society of Ontario, it obtains the same exemptions as a B.A. degree.

The length of the course is three years, in three terms of 9½ months each.

The total cost of the course, including board, uniform, instructional material, and all extras is about \$800.

The annual competitive examination for admission to the College, takes place in May of each year, at the headquarters of the several military divisions and districts.

For full particulars regarding this examination and for any other information, application should be made to the Secretary of the Militia Council, Ottawa, Ont., or to the Commandant, Royal Military College Kingston, Ont.

NEWS OF THE STUDENT SOLDIERS

EACH COMPANY WILL FURNISH THE FATIGUES

C. O. T. C. Has Secured Privilege of Use of the Old High School.

TRANSFERS ARE MADE

Rooms Allotted for Companies and Details is Statement in Orders.

BATTALION ORDERS No. 13,

by
LIEUT.-COLONEL ROBERT STAKKE,
O.C. McGill Cont., C.O.T.C.

Montreal, Oct. 19, 1915.

1. Information.

Rooms have been allotted in the old High School for Companies and Details, as on Blue Print accompanying this order.

Company Commanders will arrange to visit their Company rooms and familiarize themselves with the arrangements for rifles, etc., which are being made.

2. Fatigue.

Each Company will furnish a fatigue of four men under the Company Q.M.S. to assist the Q.M. in arranging Company rooms on Tuesday evening, Oct. 19. The Fatigue parties will report to the Q.M., Peel Street Armory, immediately after roll call.

By order,
J. C. SIMPSON,
Lieutenant,
Act. Adj., McGill Cont., C.O.T.C.

Lieutenant,
Act. Adj., McGill Cont., C.O.T.C.

NEW TRAINING CORPS

Military Training Will Become Part of Curriculum at the O.A.C.

Ottawa, October 21.—Canadian officers training corps is to be established at Guelph Agricultural College as the result of an interview with the Minister of Militia to-day, by a deputation headed by the Hon. James Duff, Ontario Minister of Agriculture. The inception of the idea was in the action of the corps already in existence at the college in forming themselves into a militia unit. In a short time every student was virtually a member of the drill corps, and it was decided to take up the matter of establishing a training corps such as now exists at McGill and Toronto Universities.

After discussing the matter Sir Sam Hughes to-day gave permission for the establishment of such a corps at Guelph College.

It will be uniformed and a regular unit of the militia. Every student who enters the College will immediately become an officer in training. Military training will, in other words become a part of the curriculum just as in the United States under the Morell Law. It is an obligatory study in agricultural colleges.

The college has already sent two hundred students to the front. The deputation, which laid the matter before the Minister of Militia, was composed of: Hon. Mr. Duff, Colonel Jack Currie, Captain A. B. Thompson, M.L.A.; Alex. Ferguson, M.L.A.; A. Potter, Warden of Simcoe County; W. T. Allen, of Collingwood, while Messrs. J. I. Hart, M.L.A.; W. A. Boyes, M.P., and W. H. Bennett, M.P., also lent their assistance to the idea.

FAMOUS ENGLISH COLLEGES TEACH SCIENCE OF WAR

Khaki-Clad Youths Taking an Officers' Course Fill the Classes.

NO STUDENTS LEFT

College Grounds Now Thronged With Convalescent Soldiers From Hospitals.

Oxford, Eng.—Transfer the scene here to Cambridge or New Haven or any other American university town and you would understand what war might do to the young men of America. This is a golden autumn Sunday. The professors will dine in solitary state to-night in the vast halls. There will be no songs of students. There are no students. They are nearly all at the front. In peace times the campus of each college would be thronged with undergraduates. To-day they are thronged with crippled men wearing the rough blue flannel suits soldiers wear in convalescent hospitals. They are not university men, either.

Take a watchmaker from Meriden, Conn., a bridge painter from Brooklyn, a hog skinner from the stock yards, a railroad brakeman from Minneapolis, and a "Frisco dock hand, put them on the campus under the elms of Yale, convalescing from war wounds, and you'll get the spirit of the scene at Oxford to-day.

To-morrow the halls of the class rooms will be full of busy youths. But they will not be reciting Greek and Latin. They will be learning lessons in fighting. Most of the colleges here have been turned over to the War Department. Young men from all over England who had never expected to enjoy so fine a thing as going to Oxford, find themselves sitting daily in the historic halls learning how to kill. They are to become commissioned officers.

Take young men from every city in the United States, remove them from their jobs in railroad offices, haberdashery stores, drug stores and business houses, send them all to Cambridge, Mass., and let them go daily to recitation rooms of Harvard to hear lectures on "How to be an Officer," and you've got the scene. Put them in American khaki and the picture is complete.

How do the town folks take it? It's deathly hard on them. They live, in peace times, on students. Now there are no students. In this way Oxford, Cambridge, too, as well as all the other university towns of England, has been hit harder than any other city on the little island.

CANADA'S PROBLEM

Course of Lectures by Mr. J. S. Woods, worth on Canadian Immigration.

A course of extension lectures on the Problems of Canadian Immigration will be given by Mr. J. S. Woods, of Winnipeg. Mr. Woodsworth, who is Secretary of the Canadian Welfare League will lecture on Fridays at 8.15 p.m. in the Physics Building. No fee is charged for this course, and everyone interested should avail themselves of this opportunity of attending these lectures. The first lecture of the course is on Friday next, October 29th. A syllabus may be obtained on application to the Registrar, McGill Building.

SASKATCHEWAN MEN MAKE LONG JOURNEY.

Two recruits for No. 4 Universities Company, C. D. Richardson, of Grenfell, Sask., and J. C. Brown, of Swift Current, Sask., both graduates of the Manitoba Agricultural College, Winnipeg, arrived from the west, having travelled 2,000 miles to join their company.

Richardson and Jones heard of the University companies being sent to reinforce the Princess Patricia's when they were in Regina, and both decided to enlist.

QUEENS O.T.C. START WORK IN EARNEST

The New Men Given Cards and Sworn in Before Colonel.

Corps Reduced in Numbers.

The Course Affords a Splendid Opportunity for Securing a Commission.

The Queen's O.T.C. work of the year was begun on Saturday afternoon. Each company met in the places announced in Friday's Journal. After a little preliminary talk, the officers secured the names of all those present. The new men were given attestation cards and then marched before Col. Cunningham and sworn in.

The O. T. C. is greatly reduced in numbers, but will be greatly increased in efficiency this year. Last season the battalion was not organized until after Christmas, but, despite the short time spent in drilling, the men acquitted themselves creditably in the spring. In any body of its size there is a great amount of work to be done in getting properly organized. The majority of the men knew nothing of drill, and most of the officers and N.C.O.s were very much out of practice. However, this year the preliminary work is completed and the O. T. C. should be a greater success than ever. The O. T. C. has many schemes which will be both interesting and instructive. On each Thursday there will be a lecture from 5 to 8 p.m. in which some tactical principle will be explained, then on each Saturday the battalion will take part in some scheme based upon this principle. The district within a radius of five miles of the University, provides very suitable ground for military tactics. Later in the year the men will be afforded plenty of ammunition for target practice.

This course should be taken by every male student, says the Queen's Journal. Not only as an exercise but as a necessary work. At present every one of us have friends at the front, many of us intend going in the spring, and none of us know whether all may not have to go. Now that the country is at war, each man should consider it his duty to learn something of military matters. A great number of the men now at Queen's will not be able to go because of some very strong private reason, but the least they can do is to be prepared in case it becomes necessary. This O. T. C. work has no "strings" to it. No member is under any more obligation to go to the front than any civilian in Canada. Each member has the O.C.'s word of honor, that he can have his discharge at the end of each college term, or at any time if necessary. Again, this course affords the men of Queen's an excellent opportunity of securing qualifications for commissions. Many men of last year's battalion are now Lieutenants at Barriefield and at the front.

This year the drills will be on Tuesday, 4 to 5 p.m., company drill; Thursday, 4 to 6 p.m.; Saturday afternoon, tactical scheme. Every afternoon Sergt.-Maj. Walker will be in Convocation Hall from 1 to 6, giving special instruction in squad drill, musketry, etc., in periods of one hour. Each member should attend these special classes as they are very important. It is expected that every Queen's man will belong to the O. T. C.

LARGE NUMBER ENLIST

Only Two Students of St. Chad's Anglican College Are Left.

Regina, Sask., Oct. 21.—With the exception of two, the entire student body of St. Chad's Anglican College here has obeyed the call to the front and exchange theological studies for military tactics.

Not only have seven of the nine students in session volunteered, but four or five more who were to take a course this fall have enlisted at other points, and it is more than probable that the college will soon be forced to close its doors for lack of students.

Y. W. C. A. OFFICERS.

At a recent meeting of the Y. W. C. A. cabinet, Miss May Newham, '17, and Miss Ella Jackson, '17, were elected to fill the positions of assistant membership convener and corresponding secretary, respectively. No other important business was brought up.

LAING IS WOUNDED

First Man to Enlist in First University to Figure in Casualty List.

A Canadian Associated Press cable states that Lieut. Laing, of the 24th, is at Letreport with a wound in his arm.

Lieut. Laing—better known among McGill students as "Rusty" Laing—figured prominently in the inter-class rugby games last year. "Rusty" was the first to join the Overseas Company of the 24th Regiment, and was given an N. C. O. position. Shortly afterwards he accepted a commission in the 24th Battalion and went overseas with the same.

PRESIDENT DENIES CULT OF GERMANS

Toronto Varsity Met More Imbued With Hun Culture Than Other Cities.

"There has not been a marked German influence in the University of Toronto," said President R. A. Falconer, replying to a correspondent's criticism that Prof. George L. Robinson, formerly of Knox College, was to some extent a product of German ideas prevalent at Varsity in his day, and that his recent utterances might be regarded as "chickens come home to roost."

"There never has been a marked German influence at the University of Toronto," repeated the president, "any more than in any university in the world. Of course, many of our older professors have been educated in Germany, though not many of the more recent additions to the staff. Most of them have come from Great Britain; most of our Ph.D.'s are from the United States. There has always been heretofore an international exchange of thought and philosophy, but Germany will be in a state of intellectual and moral isolation after the war."

Professors with German Degrees. Varsity professors who have or had secured academic handles to their names in Germany are as follows: Professors A. J. Bell (Ph.D., Breslau); I. G. A. Benzinger, now in the United States (Ph.D., Tubingen); A. P. Coleman (Ph.D., Breslau); I. E. Horning (Ph.D., Göttingen); J. G. Hume (Ph.D., Freiburg, Baden); A. Kirschmann, now ill in Germany (Ph.D., Leipzig); Wm. L. Miller (Ph.D., Munich); G. H. Needler (Ph.D., Leipzig); T. L. Walker (Ph.D., Leipzig); A. H. Abbott (Ph.D., Würzburg); F. B. Kenrick (Ph.D., Leipzig); Peter Toews, on leave of absence (Ph.D., Heidelberg).

THE E.T. CLUB DECIDE TO HOLD A SMOKER SOON

An Informal Dinner Followed by a Smoker is to be the Initiation for New Members.

The executive of the Eastern Townships Club met in the Union Tuesday evening. The main idea of the meeting was to discuss the best manner of bringing the Freshmen eligible for membership into the club. It was finally decided that an informal dinner should be held, in the near future, at the Union, followed by a smoker which would enable the "get-acquainted" idea to be fully utilized.

The Eastern Townships Club was founded at McGill a number of years ago, and has as its aim to bring together the men attending McGill who come from the Townships. It is a very frequent occurrence that two men from neighboring towns are at College and never happen to meet, circle of acquaintances at College is more or less limited and the E. T. Club offers an attractive opportunity to widen that circle.

The only qualification required to become a member is residence, either past or present, in the Townships. More information will be given, through the columns of the Daily, at a later date with regard to this first meeting of the year. All new men from the Townships will be kindly invited to attend, while the old members are requested to be present.

RUBBING IT IN.

"Well, did he pay you?" asked the wife of a dentist who had been to collect a bill for a full set of false teeth that he had made for a man almost a year before.

"Pay me?" growled the dentist. "Not only did he refuse to pay me, but he actually had the effrontery to gnash at me—with my teeth!"

UNIVERSITIES 4TH COMPANY IS COMPLETE

This Unit Now Has Full Strength of Two Hundred and Fifty.

RECRUITED IN SIX WEEKS

Owing to Dominion-Wide Reputation Very Short Time Was Taken.

The Fourth Universities Company is now 248 strong, and by the time this publication leaves the press it will have been recruited up to the full strength of 250. When the 38 men of the company that are on the road arrive here, they, with the more lately arrived recruits, will be outfitted immediately, and the most strenuous work of the unit will begin. Messages have been sent out to recruiting bureaux all over Canada, telling the recruiting officers to decline any more men for the Fourth Universities Company.

The Fourth has recruited much faster than any other of the Universities Companies, for the recruit list was opened on September 7, so that it has taken exactly six weeks and one day to assemble as fine a body of men as anywhere has been found. It reflects great credit on the Universities Companies and the reputation they have made for themselves when it is considered that the demand for these units has increased enormously throughout the Dominion without any conscious effort to recruit and without the least advertising on the part of the companies and their organizers. The Fourth Universities Company is certainly to be congratulated on the physical and mental qualifications of the men in this unit, six of whom are well qualified lieutenants, who have resigned their commissions in order to serve in the ranks of such an exceptional unit, the greater part of which is composed of undergraduates, drawn from all the universities of the Dominion. Eight new names appear on the pay-roll since yesterday. These are: A. W. Chestnut, J. A. Bethune, P. H. Montgomery, C. D. Richardson, E. H. Stevens, H. J. O'Neill, J. L. Brown, E. F. Mount.

Attend the Ranges.

Yesterday a squad of 25 men of the Fourth Company went down to the Pointe aux Trembles ranges in charge of Lieut. Higgins and Corp. de Perry. The company machine gun was brought down, and Mr. Higgins, who is a qualified machine gun expert, gave instruction in sighting and firing. After this the squad spent the remainder of the day in rifle firing at the 200 and 500-yard ranges, where some good scores were made. The morning was spent by the main body of the company in extended order work on Fletcher's Field. Starting at one end of the field, company in attack was practised as far as Mary Anne and Rachel streets. Finally the whole body doubled across in a charge the whole length of the field, and carried the knoll at the north-west corner of this recreation ground. Then the company turned about, fixed bayonets and executed a brilliant bayonet charge.

Upon coming home to the barracks after this strenuous labor, a test for the N. C. O.'s was conducted in elementary drill work.

In the afternoon the company did squad drill on the campus, while a squad of twelve picked men received instruction in bayonet fighting.

LAW FRESHMEN TO FORM TEAM

Legal Lights Have Some Good Material to Start With.

At an informal meeting of the class of Law '18, it was definitely decided to form a football team for the purpose of playing the other years of the Faculty of Law. With two former senior McGill men on the team in the person of Bill Hughes and Phil Abinowitch, things look pretty bright for a formidable aggregation.

George King, of last year's Bishop's College team, was elected captain. The first practice will be held some time this week.

Don't Wear Heavy Underwear—it is Not Necessary
Get Good, Pure Woolen Underclothing of Lighter Weight

"CEETEE"
UNDERCLOTHING
ALL PURE WOOL—GUARANTEED UNSHRINKABLE
MEANS ECONOMY PLUS COMFORT

Light weight is one of the many reasons for the popularity of "CEETEE" Underclothing. A "CEETEE" garment will keep you warmer and more comfortable than a coarser though much heavier garment. It is knitted on special machines, the only machines of the kind in Canada. It is knitted from the finest, purest and longest wool obtainable, (Australian Merino). It is "economy" to buy "CEETEE." Better to spend \$5.00 once than \$3.50 twice.

Worn by the Best People—
Sold by the Best Dealers.
In all sizes for Men, Women and Children.
Made in Canada from all British material by

COLUMBIA LARGEST UNIVERSITY.

Registration at Columbia University for the academic year 1915-16 shows a total of 15,573 students, as compared with 12,743 at the same time last year. With the late entrants and the February registration the total is expected to reach 18,000 students. This makes Columbia the largest university in the world.

UNION COMMITTEE HOLDS MEETING

Advisory Board Sanctions Ex-
penditure for Improvements
in the Union Basement.

The regular meeting of the Union
House Committee was held yesterday
afternoon at 5 o'clock, at which
the following members were present:
Messrs. MacLachlan, Allan, Bamfield,
Matthews, Moore, McDonald, Harshaw,
Williscroft and Melville. Messrs. W.
Harshaw and N. B. Allen, who were
recently elected by acclamation to the
House Committee made their initial
appearance.

The Secretary reported that no
nomination had been received for the
office of billiard representative and it
was decided to extend the time for re-
ceiving nominations for this position
until noon of Friday, October 22nd.

Mr. Williscroft reported that the
Advisory Board had sanctioned an ex-
penditure, not to exceed \$50, for necessary
improvements in the basement of the
Union.

It was decided to call a general
meeting of the Union members, as
soon as possible, the particular date
of same to be decided upon by the
President and Secretary.

Having no further business, the
meeting then adjourned.

TRACK CLUB MEETS PRES. WAS ELECTED

H. Crombie, of Science '17, Elect-
ed by Acclamation at Special
Meeting.

Immediately after the adjournment
of the Students' Society meeting yester-
day, a special general meeting of
the Track Club was held. The meet-
ing was called to order by A. S. Lamb,
president of the Students' Council, who
explained that owing to the absence
from college of Dan M. Sutherland,
elected to the office at the general
meeting of the club last spring, it be-
came necessary to elect a new presi-
dent. As two of the three candidates
had been declared ineligible to hold
the position, H. Crombie, of Science
'17, was declared elected by acclama-
tion, and will hold office until the next
general meeting in March.

There being no further business, the
meeting adjourned.

POLO GAMES THIS EVENING

Last Year's Champions and Mc-
Gill Clash To-night in
Double Header.

Polo enthusiasts will no doubt be in-
terested in to-night's double-header to
be staged at the M.A.A.A. tank, when
the McGill teams meet the M.A.A.A.
aggregations.

The students yesterday held a fast
workout and expect to give the cham-
pions a run for their money. The fol-
lowing men are requested to be on
hand at 7.45 with their suits:

Seniors—G. Hodgson, Sid Baldwin,
P. H. Patterson, K. Roseborough, T.
Trapp and C. W. Clarke.

Intermediates—T. D. MacGregor, W.
E. Sullivan, J. E. Faddon, O'Brien, R.
J. Clarke, Wilson, Ed. L. Clarke, H. D.
Butterfield, A. G. Wilkins and C. A.
Marlatt.

RUGBY HAS NOW STARTED

Macdonald College Have Coach
And are Playing Scheduled
Games.

The Macdonald Rugby team have re-
organized and are now down to work
in earnest. Sutherland, an old Rugby
fan, for many years in the game, is
acting as coach and is getting the team
well into shape.

Last Saturday the first league game
was played on the Macdonald campus
against the Emeralds. The game was
very keenly contested throughout, al-
though it ended in the score of 15 to 5
for the Emeralds.

This coming Saturday the College is
to play the Shamrocks.

PENDER IS GRADUATE MANAGER.

Hanover, N.H.—The appointment of
H. G. Pender, of Boston, as graduate
manager of athletics has been an-
nounced by the Dartmouth College
athletic council. Mr. Pender, who was
graduated with the class of 1897, has
served the college as chairman of the
executive committee of the Alumni
Council, and as an officer in various
alumni associations.

College Athletics

UNIVERSITY SPORTS ENTRY LIST CLOSES

Applications for Participation in
Sports Must be in
To-day.

GOOD RACES PROMISED

Close Contests Are Assured
With Competition of
the Keenest.

The entry list for the sports on Fri-
day close to-day at noon. Already the
list is fairly large, but a number of
the older men are to come along yet.
The 100 yards has an exceptionally
small entry to the usual number. So
far the only entries in this event are:
Black, Davis, Hillier and Smelzer.

The 220 yards should prove a very
close race with the following: J.
Block, Alberga, A. Davis, Cassidy, Hil-
lier, Woolward, F. S. Parsons, Le-
gault and Smelzer. This will, no
doubt, be one of the best events of the
day because five at least of these men
are so evenly matched.

The 440 also should prove interest-
ing with 9 entries to date. The fol-
lowing are signed up for this event:
J. Block, E. A. Cushing, P. R. Laf-
foley, Davis, Cassidy, Legault, Par-
sons, Frosst and A. N. Alberga.

In the half mile, Antliff, Davis, Cas-
sidy, Parsons, Walsh and Frosst are
entered. Davis, Walsh and Cassidy
are unknown quantities at this dis-
tance, but may spring a pleasant sur-
prise. In any case it ought to prove
a close contest with Antliff, Parsons
and Frosst going strong.

In the mile, Antliff, Walsh, Cassidy
and Gerrie are the only entries to date
but Hugh Crombie will be out, and it
is expected there will be at least 3
or 4 more entries to-day.

The three mile has only four en-
tries, in Walsh, Antliff, Gerrie and
Macklin signed up. Several others,
however, have signified their intention
of taking a crack at this grind and
will no doubt enter to-day. This year
Bill Antliff is going strong at this dis-
tance, and is going to take a crack
at last year's record of 16 mins., 19
secs. for the distance.

J. Block, Eric Cushing, Woolward,
Roussac and Frosst are the only en-
tries in the hurdles. This is one of
Eric's pet events, but after the good
showing of Woolward and Block last
Saturday, there ought to be plenty of
room for excitement.

In the high jump, Antliff, Cushing,
Foss, Loughery, Klein, Smelzer and
Frosst are entered. This ought to be
a very close event with Antliff, Eric
Cushing, Klein and Smelzer, all jump-
ing around 5 ft., 4 in.

In the pole vault the three old
stand-bys are entered: Antliff, Cush-
ing and Klein.

The broad jump has six entries to
date and all are going around the 19
ft. mark. The following are entered:
Antliff, Cushing, Foss, Woolward
and B. A. Klein.

With the absence of our weight
champion this year there has been an
unusual large entry in the weight
events. In the shot put, Foss, Lough-
ery, F. S. Parsons, Legault, C. M. De-
Rochie and Smelzer, are entered. In
the discus and hammer, Parsons, Le-
gault, DeRochie and Smelzer are the
entries so far.

In the relay race Med. '17 and
Science '17 are the only teams en-
tered to date, but it is expected the
other classes will come forward to-day.
It is especially desired to make this
race one of the best events of the day
and all the various classes are urged
to get busy and get their teams lined
up to-day.

Very few men turned out on the
track to-day, and those who were only
went through light work. Some oth-
ers showed up for a rubdown, but did
not go on the track.

TO VISIT BREWERIES

Railway Club Will Inspect the Fron-
tenac Works in a Body.

Next Saturday afternoon, at two
o'clock, the Railway Club will meet at
the Union, for a trip to the Frontenac
Breweries. These trips, which have
proved of so much interest to Science
students in past years will be inaugu-
rated for another session at the initial
meeting on Saturday. The executive
of the Club has been busy arranging
for trips in the future, and in view of
the programme drawn up, a very suc-
cessful year is anticipated. Visits will
be paid this winter to the following
places: "Canadian Car Foundries,
Ltd"; C. N. R. Tunnel, Montreal Loco-
motive, Vickers-Maxim and Dominion
Bridge.

Membership tickets may be had
from the janitor of the Engineering
Building for any Science students who
desire to avail themselves of the op-
portunity.

R.V.C. BASKET BALL

Officers For Year Elected at Meeting
of Mount Royal League.

A meeting of the Mount Royal Gen-
eral Women's Basket Ball League was
held on Monday evening in the R.V.C.
The following officers were elected:
President, Miss Simpson; secretary,
Miss Mary Currie.

TICKETS FOR SPORTS.

The presidents of the various
Undergraduate and R. V. C. So-
cieties have been given tickets
for the sports to be held to-
morrow at the Stadium. These
will be distributed among the
class presidents, who will in
turn give two tickets to every
student this morning. Should
any student desire more than
two, he can get same by apply-
ing to Mr. Melville at the Union.

PRACTICE HOURS

Hours When the Various Teams May
Occupy the Stadium.

The following practice hours have
been allotted to clubs playing on the
new Stadium:

Soccer Clubs.

Tuesday, 4 to 6 p.m.

Class Football Teams.

Arts '16 and '17—Wednesday, 3 to 4

p.m.; Thursday, 3 to 4 p.m.; Saturday,

10.30 to 12 a.m.

Science '18—Tuesday, 9 to 11 a.m.;

Thursday, 5 to 6 p.m.

Science '19—Friday, 3 to 5 p.m.

Medicine '19—Wednesday, 4 to 5 p.m.

SILVER QUILTY

HURT IN GAME

Famous Senior Squad Flying
Wing May Not Play Game
Saturday.

Silver Quilty, the big Ottawa line
plunger, may not be able to figure in
Saturday's game against the Argon-
auts. The big fellow developed an at-
tack of blood-poisoning in his arm fol-
lowing the M.A.A.A. game here last
Saturday, and has since been under
the care of a specialist. He has not
been out to practice so far this week,
but it is hoped that he will have recov-
ered sufficiently to take part in Satur-
day's game.

Goals from the field played an im-
portant part in more than one big
close game on Saturday. Harvard and
Wesleyan won by this means, Captain
Mahan kicking three for the Crimson.
Illinois tied Ohio and Wabash tied
Washington, each getting one.

SOCCER PRACTICE.

A soccer practice will be held
on Thursday, Oct. 21st, at 4.15
p.m., on Fletcher's Field. All
interested are requested to turn
out.

EDITORIAL BOARD HOLDS MEETING

Class Pictures and Sketches
Among Items Discussed at
at Annual Meeting.

The Editorial Board of the 1917 An-
nual met yesterday evening in the
faculty room of the R. V. C. The full
complement of the board were present,
even to the representative from Mac-
donald College, and consequently quite
an amount of business was transacted.

Soon after the board convened, Dr.
Vineberg, Law '16, last year's editor-
in-chief of the Annual, gave his ad-
vice and experience as recommendations
to this year's board.

It was decided, after some discus-
sion, that sketches should be solicited
from all classes and faculties in the
University with the proviso that any
or the best need not be accepted. Fur-
ther, the board agreed that the editors
of each faculty should present this
resolution to the classes in their fac-
ulty, at the same time soliciting sub-
scriptions to the published Annual.

Under this head, too, a resolution was
passed that the department of archi-
tecture should be asked to elect a re-
presentative to sit on the board as art
editor.

The question of using inserts from
the fraternities was next mooted. It
was decided to visit the several frater-
nities, asking how many Annuals each
would purchase if such inserts were
used. The final decision, however, was
left to the fraternity council.

The editor-in-chief asked each re-
presentative to see that the details con-
cerning the individual members of the
junior year should be collected as soon
as possible. He also asked that the
editors should request the men of their
years to get their photographs taken
as soon as possible.

The business board, which met ear-
lier in the evening, recommended that
all the initial subscriptions of 50 cents
be in their hands as soon as possible.

WINAN TO HELP COACH.

New Haven.—C. D. Winan, Yale '15,
of Moline, Ill., has been appointed first
assistant rowing coach at Yale at the
request of Head Coach Guy Nickalls.
Winan rowed in the regatta last June,
sitting at No. 7 in the university boat.
He will take Giannini's place, working
with the freshman oarsmen.

EVERYWHERE WHY?

MURAD CIGARETTES

Ten for
fifteen
cents.

FINEST QUALITY

LAST CHANCE FOR PHYSICAL EXAM.

In Order to Compete in Any
Sport Examination is Ne-
cessary.

All men wishing to compete in the
water polo game, which takes place
this evening must be physically ex-
amined to-day. As has been repeated
so often men not having been exam-
ined will not be allowed to participate.
Arrangements have been made by
which Dr. Harvey will examine the
men at the C.O.T.C. Armory, 425 Sher-
brooke west, between the hours of 4
and 6.30. Any others who have not
been examined for inter-class games
may see Dr. Harvey at the hours men-
tioned.

HARRIER MEETING.

A meeting of the Harrier
Club will be held in the Strath-
cona Hall this evening, at seven
o'clock. All those interested in
cross-country running are
urged to attend, as important
business will be brought up.

What's On

3.00—Arts '16-'17 practice.
4.15—Soccer Club practice.
12.00—Arts '17 meeting.
7.00—Harrier Club meeting, Strath-
cona Hall.
5.00—Science '18 practice; Colum-
bian Club smoker; McGill vs. M.A.A.
A. at water polo.

Oct. 22—Senior year meeting.
Oct. 22—University sports.
Oct. 23—Freshie number of McGill
Daily.

Oct. 23—Railway Club.
Oct. 24—Cerele Francis dinner.
Oct. 26—Oriental Society.
Oct. 27—Arts freshman-sophomore
smoker.

Wisconsin keeps right on winning
by impressive scores.

Colgate 13, West Point 0, must have
been a big surprise to the cadets.

Princeton is developing very rapid-
ly. J. E. Eddy at full back is showing
great promise.

Printed for the publishers—The Stu-
dents' Council of McGill University.
—by The Financial Times Press,
333-335 Craig Street, Montreal.

Here's the load for DUCKS

It's a fast, hard-hitting load that gets what it goes
after. And it's a dependable load always.

Dominion Shot Shells are primed with the new "3 B" primer, the
largest and most sensitive; the powder used is the best that can be
obtained; the shot is double chilled; loading is accurate and uniform;
inspection and testing are thorough.

Every element that enters into the making of a perfect shell is to
be found in

the "Canuck"

the best load for every kind of shooting that
requires a speedy shell.

Made by the makers of the old reliables—
Regal, Sovereign and Crown; nearly twice as
many of which are shot in Canada
as all other makes combined.

Your dealer can supply you. Send
10 cents for 16 game pictures.
